ENGINEERING

**Job Title:** Senior Municipal Engineer

**Company:** Safe Roads Engineering Inc.

**Reports To:** Linear Engineering Practice Lead

**Location:** GTHA, Hybrid

**Job Type:** Full-Time

## About Safe Roads Engineering:

Safe Roads Engineering (SRE) strives to provide clients with services and products that are among the best in the industry. SRE is a multi-disciplinary construction engineering consultant that strives to deliver prompt and simplified construction solutions, making us the consultant of choice. As our technical portfolio grows, so too is the need to bolster out operations management.

SRE is looking to add a **Senior Municipal Engineer** to work out of one of our Ontario offices (Kingston, Aurora, Cambridge) with the ability to also be hybrid. The Senior Municipal Engineer will play a pivotal role in assessing, improving, managing and delivering innovative and sustainable solutions for infrastructure projects. The role will report through our linear engineering practice and be heavily engaged in supporting our current book of business as well as providing guidance on future opportunities. The ideal candidate will be able to lead strategic initiatives and be a self starter with the ability to move with pace.

## Main Responsibilities

- Lead the planning, design, and execution of municipal infrastructure projects.
- Provide engineering expertise in the development of detailed designs, drawings, and specifications in compliance with municipal standards and regulations.
- Collaborate with municipal clients, regulatory agencies, and other stakeholders to ensure project requirements and expectations are met.
- Prepare and manage project budgets, including cost estimates, forecasting, and resource allocation.
- Lead and support proposal development and participate in business development activities to secure new municipal projects.
- Participate in council meetings as needed to support project requirements.
- Develop, manage and mentor a technical (best in class) delivery group.
- Build and nurture strategic industry partners and client base.

## Qualifications

- Bachelor's degree in civil engineering or a related field.
- Professional Engineer (P.Eng.) designation in Ontario.
- Minimum 10 years of experience in municipal engineering.
- Proficiency in design software such as AutoCAD, Civil 3D, and GIS tools.
- Experience managing projects and a strong understanding of requirements gained from working closely with local municipalities.
- Exceptional analytical and problem-solving skills, with the ability to address complex engineering challenges.

# Safe Roads

ENGINEERING

- Excellent communication and interpersonal skills, with the ability to collaborate effectively with diverse teams.
- Proficient in account reporting and operational management systems including Deltek, excel and Power BI.

## What We Offer:

- Competitive salary and comprehensive benefits package.
- Opportunity to lead and assist with high profile projects.
- Career development opportunities for professional certifications.
- Flexible work environment with hybrid options available.

**Job Type:** Full-Time

**Schedule:** Monday to Friday

**Education:** Bachelor's Degree (required), Professional Engineer (P.Eng.) designation in Ontario (required)

**Experience:** Municipal Engineering, 10 years (required)

**Work Location:** Hybrid remote in Aurora, ON L4G 1K1

## How to Apply

Interested candidates are encouraged to submit their resume and cover letter outlining their relevant experience to [HR@saferoadseng.com](mailto:HR@saferoadseng.com).

*Safe Roads Engineering encompasses a diverse collection of successful businesses, but our spirit isn't found in the diversity of our portfolio, it's found in the diversity of our people. At SRE, we believe that our greatest opportunity for continued success is fostered in the belief that every voice matters. Each one of us has a unique story and we promise to do our part to ensure that those stories are heard, seen, acknowledged, and supported. We are dedicated to building a diverse, inclusive and authentic workplace, so if you're excited about this role but your experience does not align perfectly with every qualification in the job description, we encourage you to apply anyways. You may be just the right candidate for this or other roles.*

*Safe Roads Engineering is committed to meeting the accessibility needs of persons with disabilities in an effective and timely manner in accordance with the applicable standards set out in the Accessibility for Ontarians with Disabilities Act, 2005 (AODA), the provisions of the Ontario Human Rights Code, and any other applicable legislation. We foster an inclusive organizational culture as an Equal Opportunity Employer.*
