

Safe Roads

ENGINEERING

Job Title: Transportation EIT

Company: Safe Roads Engineering Inc.

Location: Kingston, ON (In-person)

Job Type: Full-time

About Safe Roads Engineering:

Safe Roads Engineering (SRE) strives to provide clients with services and products that are among the best in the industry. We specialize in transportation engineering, roads and highways, transportation structures, precast concrete structures, overhead sign structures, noise walls, supported excavations, and traffic management plans.

SRE is seeking a dedicated **Transportation EIT** to join our team at the Kingston office, with potential flexible work-from-home opportunities. Collaborating closely with our experienced engineering team and other divisions within the Group, the Transportation EIT will contribute to designing, analyzing, and delivering innovative and sustainable transportation solutions.

Main Responsibilities

- Conduct and lead field studies and reporting (site visits, inventories, assessments, etc.).
- Undertake roadway design, not limited to road and roadside safety designs, using relevant standards and various software, not limited to Civil 3D.
- Establishing design criteria for road design projects.
- Develop comprehensive engineering designs and drawings for road and highway infrastructure projects, based on preliminary concepts, client specifications, bid documents, and engineering directives.
- Prepare technical documentation, including reports, calculations, and technical memos while supporting with proposal writing, business development, and client interactions.
- Prepare comprehensive contract packages, including design drawings, specifications, and accurate cost estimates. Establishing design criteria for road design projects.
- Design and Review traffic control plans and traffic signal plans.
- Identify and participate in the acquisition of new clients and work (research and liaise with clients as well as network within the industry).
- Support the Project Manager and / or Assistant Project Manager on various projects to ensure timelines and targets are being met.
- Assist in or undertake the preparation of proposals and report writing.
- Other duties as assigned.

Qualifications

- Bachelor's degree in civil engineering or a related field.
- Minimum of 2 years of experience in transportation engineering or a related field.
- Proficiency in transportation design software and tools, with strong technical and analytical skills.
- Demonstrated ability to work collaboratively in a team environment and communicate effectively with stakeholders.

Safe Roads

ENGINEERING

What We Offer:

- Competitive salary and comprehensive benefits package.
- Opportunity to lead and assist with high profile transportation and highway projects.

How to Apply

Interested candidates are encouraged to submit their resume and cover letter outlining their relevant experience to HR@saferoadseng.com.

Safe Roads Engineering encompasses a diverse collection of successful businesses, but our spirit isn't found in the diversity of our portfolio, it's found in the diversity of our people. At SRE, we believe that our greatest opportunity for continued success is fostered in the belief that every voice matters. Each one of us has a unique story and we promise to do our part to ensure that those stories are heard, seen, acknowledged, and supported. We are dedicated to building a diverse, inclusive and authentic workplace, so if you're excited about this role but your experience does not align perfectly with every qualification in the job description, we encourage you to apply anyways. You may be just the right candidate for this or other roles.

Safe Roads Engineering is committed to meeting the accessibility needs of persons with disabilities in an effective and timely manner in accordance with the applicable standards set out in the Accessibility for Ontarians with Disabilities Act, 2005 (AODA), the provisions of the Ontario Human Rights Code, and any other applicable legislation. We foster an inclusive organizational culture as an Equal Opportunity Employer.
